To our members, fans, and continued supporters:

Boy has it been a long time. It is hard to believe it has been almost two years since we have seen you all and welcomed you to the joy of Dragon Con. We are ecstatic that we are able to welcome you (albeit much less of you than in previous years) home in a few short weeks (yikes).

First off, we want to assure you that we are keeping in touch with the experts and city, and working with our venue partners to make sure everything and everyone stays safe, happy, and healthy.

There are so many things that will be a little different this year, so we wanted to take a moment to highlight a few.

- As mentioned before, we will have an attendance cap and anticipate selling out prior to the in-person event. As part of that overall attendance cap, we will have a very limited number of one-day memberships for select days of the show for purchase on August 1st at 10a EDT. Mark your calendars now, these will go fast.
- Prior to these memberships going on sale, we will be releasing a full plan on COVID precautions and rules to keep our event safe.
- Badge checks will be expanded across the show to support the capped attendance and spacing. If you don't have a membership for Dragon Con, we ask that you participate in some of our awesome virtual elements highlighted below, as the hotels will be closed to members only.
- We will have cleaning breaks across all programming spaces during the day. These deep cleans will be spread out over three panel times so there will ALWAYS be lots of programming options to choose from - just not quite as many as before.
- We will have areas of limited hours across the show. More details on this to follow, but it will be key in allowing us to deliver on cleaning commitments and other enhanced safety measures.
- AmericasMart Building 1 (Gaming) will be closed from 2 am - 8 am daily. Open gaming will be available 24 hours a day in the Savannah Ballroom of the Westin.
- The Walk of Fame will most definitely look and feel a bit different than before. We will have less guests signing to allow for better spacing, flow, and line management. At this time, the plan is to have additional safety protocols than those that will apply to the whole show.
- We are going to be making overall changes in spots of the show where congestion and flow are a common challenge. For instance, the Concourse will modify scheduling to break between each performance, rotating between both locations with less bands and performances. Additionally, we've made the decision to eliminate fan tables for 2021 wherever possible with the same goal in mind.
- We have received our parade permit and at this time will be hosting a modified and scaled back parade. A Dragon Con membership is required to view the parade live and in person for 2021. We will be streaming it online, broadcasting it on the CW, and asking all non-members to watch it on TV.

We are ecstatic to bring forward some of the amazing goodness of Dragon Con Goes Virtual to provide digital content for fans that are not able to be with us and further expand the footprint and joy that is Dragon Con. Virtual happenings to expect include:

- We will have a Fan Track stream throughout the weekend with new content - two panels per track so you can experience one of the most unique aspects of the show from the comfort of your own home.
- We will have a second stream of Main Events from the in-person show so you don't miss out on the panels with our awesome lineup of guests.
- Social is working up some awesome exclusively virtual content that will be hosted across our platforms, along with planning contests and interactive opportunities to engage with fellow fans.
- The Dragon Con Discord continues after a major success in DCGV with some new features being added for this year's show. If you aren't a member, [head over there asap](#) because it's where all the "cool kids" are..

- We will again host a virtual marketplace including Vendor Hall, Comic and Pop Artist Alley, and Art Show through our amazing partners at evenery. If you shopped last year for DCGV, you know what to expect. If you didn't, be prepared for your mind to be blown. You can pick up all sorts of goodies whether you are attending the event or not and it will even be open through Friday, September 10th.

In order to tune in to our live streams (and have access to the extensive archive content) throughout the weekend, a streaming membership will be available for purchase for the low price of \$10 at dragoncon.tv in August. Please note, we will be providing free streaming memberships to anyone with a current membership who is unable to attend the in-person event. To take advantage of this, simply [email the office](mailto:info@dragoncon.org).

For the latest updates and information, our official social media channels will report any changes or important announcements. Please follow our [Facebook](https://www.facebook.com/dragoncon), [Twitter](https://twitter.com/dragoncon), and [Instagram](https://www.instagram.com/dragoncon) pages to stay in touch.

In the meantime, take a look through the pages of this booklet and see the great guests and events we have planned for our members so far. This Progress Report is testament that we are looking forward to September when we can all gather again, as one big, happy Dragon Con family. Just remember, any information here is subject to change as events and information continues to unfold.

We continue to look forward with cautious optimism in hopes of making Dragon Con 2021 a fantastic event.

We hope to see you there.

If you've somehow never played M.A.S.H. before, we'll supply the basic rules for you. First step is to print this page out and grab the closest gel pen. Next, imagine the Dragon Con of your dreams. Write down five things in each category (we've given you a few to start).

Now, one person starts drawing a spiral in this circle and the person whose fortune is being told tells them when to stop. Then, you count across the spiral top to bottom to get the magic number for the game. All you do is count through your lists of items AND the letters M-H-H-S-W, eliminating the ones that you land on with your magic number. The last one left in each group is your winner!

ALTERNATE & HISTORICAL FICTION

The [Alternate and Historical Fiction Track](#) is the destination for all things bygone and neverwas. It covers everything from fan discussions of period media, speakers on overlooked eras, social events, to even demos of period costuming techniques. There is fun for all who fancy festive frolics through factual and fictional former times.

The flux capacitor is set to give a peek into the possible future: fan panels on shows like *Bridgerton* and *The Marvelous Miss Maisel*, costuming panels on recreating vintage styles, a dive into sea shanties and pirate lore, and that's just the beginning! For historians of all ages, there will be American Girl Doll discussions, Splendid Teapot Racing, and more.

Finally, events across hotels and the good of ' interwebs include various panels on spies, pirates, and swear words! There will be in-person programming and virtual events to enjoy both at the con AND before.

More details on pre-con online happenings can be found across our social media channels.

AMERICAN SCI-FI & FANTASY MEDIA

Let us rejoice that we can all be in the same space again! Start off the Con right on Thursday night with the [American Sci-Fi & Fantasy Media](#) track's Geeky Singalong, where we can sing our hearts out to all the theme songs and earworms we have had in our heads and hearts for years. You don't even have to know the words!

At its heart, this track focuses on media content, big screen and small. Panelists from all corners will join with you—yes you!—to share their perspectives and hear yours. Just to give you a little taste of our plans for this year, we will be featuring fan panels on a wide range of shows and movies. From *Black Widow* to *The Nevers*, to the digital afterlife of *Upload*, to the worlds beyond ours with the *Expanse*, and even more!

There will be some fun panels, like One True Pairing Improv Shipping where the panelists will rationalize the best ship from your wild suggestions! This year we will also have the Battle of the Supermen, where we can all chime in about the best things in every media version of the Man of Steel and where they fall on the Kryptonian scale. Since Supes himself is a parent now, we will get into more thoughtful topics, like Superhero Parenting. Yes, that is a thing now! From the good ones to the bad ones (looking at you, Omni-Man!) and all those in between.

Shifting to a more outer space, get ready to learn new things with our primer class on Lang Belta from the *Expanse*. You will be able to truly confuse your enemies and chat up your friends before class is over, and you might even want to consider how living in space is actually handled. Is it ridiculous, or thoughtful?

Not to shy from tricky discussions, we encourage all to join us in considering the Legacy of the Shield, and the legit need for a good therapist (or 20) to deal with the problems of being a super anything. We hope you will wander down to the Marriott and join us!

AMERICAN SCI-FI CLASSICS

Take a quantum leap into the archives of movie and TV awesomeness from the 70s, 80s, and 90s with the space-age whiz kids at the [American Sci-Fi Classics Track](#).

The Classics Track brings together fans from remote galaxies with tributes to *Flash Gordon*, *Indiana Jones*, *Transformers*, *Superman II*, *Greatest American Hero*, and *Howard the Duck*. That's right, *Howard the Duck*.

Some movies are too infamous for one fan alone to handle. In the Sci-Fi Classics Track, the audience gets locked in together to see one such movie, and the only way out is a donation to Dragon Con's official charity! Witness the comedic chaos in the return of the Sci-Fi Roll-A-Panel, featuring 20 mini-panels about 20 classic sci-fi movies in one lightning-round hour.

ANIMATION

The [Animation Track](#) is ready to welcome back our fans, voice actors, animators, industry professionals, artists, and creators back with open arms! Get ready to discuss your favorite nostalgic comfort toons, and the new shows that helped you transcend reality! Besides fan discussions and guest Q&As, we will bring back our toon-tastic singalong events, artist networking opportunities, and the Dragon Con Cosplay Contest, jointly with the Anime/Manga Track. Details about the Cosplay Contest can be found in the Contests section of this Progress Report. Highlighted guests of the Animation Track this year include voices from Netflix, Nickelodeon, Cartoon Network, and Disney, from 80s/90s nostalgia to new and original animated productions. Don't forget your cosplay, autographing pen, fan theories, and business cards this year as we make connections through our love of cartoons, art, and the animation industry.

ANIME-MANGA

The [Anime-Manga](#) track is dedicated to the enjoyment of art and animation produced in Japan, but loved worldwide. This year we are moving across the hall to Hilton Galleria 4, where we will feature panels and presentations that will highlight anime and manga, both old and new.

Throughout the weekend, the track room will also showcase a variety of fan-created anime music videos for your viewing pleasure. Outside the track room, we will be hosting panels that will feature guest appearances from some of your favorite English dub voice actors and directors. We are also partnering with the Animation track to host our ever-popular Cosplay Contest that celebrates the skill and hard work needed to bring animated characters to life.

APOCALYPSE RISING

Whether the world is ending or you are just trying to survive after it has, [Apocalypse Rising](#) is your one-stop shop for all things before, during, and after an apocalypse.

Our Survival panels will prepare you for the worst with discussions for every level of "prepper," including panels on what it means to be a contemporary homesteader and the difference between bugging in and bugging out. Our experts will also be taking an in-depth look at topics such as pandemics (too soon?) and first aid and trauma response. But things are not all doom and gloom! Our panel of seasoned authors will show you a lighter side of survival in our apocalyptic story round table, where the audience will dictate the tale our authors will spin. Or, as we pivot from fact to fiction, you can experience last year's virtual Aliens vs Zombies in person and watch our "experts" debate which species would dominate in any number of wacky apocalyptic scenarios.

You can also look forward to lively fan discussions on seasoned TV favorites such as *The Walking Dead* (in all its variations) and *The Handmaid's Tale*, as well as relative newcomers *Snowpiercer* and *Y: The Last Man*. We will even step outside the box a little as we delve into popular stories that might not traditionally be classified as apocalyptic, both in film and literature. Whether you are bugging in or out this year, be sure to check out our virtual panels airing on DCTV during Dragon Con! So, gear up and be sure to follow us on [Instagram](#), [Twitter](#), and [Facebook](#) (Dragon Con Apocalypse Rising Track) for more updates!

In continuation of last year's Dragon Con Goes Virtual, we will also have a selection of virtual panels. You can stream them on our [YouTube](#) channel, on [Twitter](#) (via Periscope), and our Facebook Group, [The BritTrack at Dragon Con](#). COSTUMING

A celebration of all things costuming, the [Costuming Track](#) is bringing back many old favorites as well as a few new surprises. The Villain Vogue Fashion Show features crafty villainous couture for bad guys/gals, henchmen, and their nemeses. The Bunny Hutch Party and Contest and Friday Night Costuming Contest are returning to celebrate creative bunny/Hef costumes and craftsmanship, respectively. Two new contests, Muscle Nerd Showdown and Mad Makeup Mashup, are joining this year's lineup and are sure to be a blast. Select educators are finalizing amazing track workshops that provide an opportunity to learn a new skill for the low cost of materials reimbursement. More information and registration for the fashion show, workshops, and all our contests are available at www.dragoncon.org/costuming.

DIGITAL MEDIA

Following a year when the world had some extra time on its hands, digital media exploded and suddenly everyone and their cousin had a Twitch stream, TikTok, YouTube channel, and then some! The Digital Media Track offers audiences a world rich in sci-fi, fantasy, geek culture, satire, and original music through audio and video programming. Ever-growing and evolving, the community has proven they are willing to put their resources behind creators through crowd-funded support, allowing content creators the freedom to share their visions and thoughts without reservation. DIVERSITY IN SPECULATIVE FICTION & LITERATURE FANDOM TRACK

The [Diversity Track](#) encompasses complex differences and similarities in perspectives, identities, and points of view among groups as well as individuals who make up the wider community. It is essential that fandom is represented positively, diversely, and fairly. After the huge success seen since our inception in 2018, we continue to build on what has been established.

Our goal is always to bring back some of the great talents from previous years while providing even more diversity by adding new faces to the lineup each year. Achieving a more diverse environment is a way to improve the Dragon Con experience for all, while promoting respect for each of us as individuals.

Please stay tuned to our Facebook group for programming details at www.facebook.com/groups/DiversityInSpeculativeFiction/

ELECTRONIC FRONTIER FORUMS

Concerned about freedom of speech, privacy, and YOUR rights online? So are we! [Electronic Frontiers Forums](#) is a series of lectures and discussions that take place each year at Dragon Con, covering the intersection of technology, law, activism, and online culture. We examine legal and societal challenges brought about by new technologies and how they fit within the framework of our precious rights and freedoms in a democratic society. We bring the best law experts, technologists, and advocates together to map out our shared future, call out the risks and dangers, and highlight the promises that technology can bring.

Topics that we plan to cover this year include use of surveillance technology by law enforcement, biases “baked in” to artificial intelligence, election laws at the state and federal level, the role of antitrust law with so-called “big tech,” net neutrality, new developments in digital copyright law, proposed changes to Section 230 of the Communications Decency Act, and many others. Returning favorites include Hacking 101, Hacking 201, Copyright 101, and a screening of the documentary *10 Rules for Dealing with Police*.

So keep an eye on our [YouTube](#) and [FB](#) Pages for all the easter eggs and gems to come. As always there is room enough for everyone in Fantasy.

FILK SINGING

From its humble beginnings as a misprint of "Folk," the controversy continues into the present as to the exact definition of filk music. Here at Dragon Con, we like to say that everything is filk! The [Filk Singing](#) track is the music of fandom, whether it is a parody song about *Firefly* or an original piece about Marvel vs. DC Comics. We are the music by fans for fans, and we would love for you to join in with us, whether you want to sing with us (Open Filk), learn about making fandom music (workshops and panels), or listen to your favorite filk music artists (concerts). If you are looking for fandom music of all stripes, we have something for you!

FILM TRACK

The [Film Track](#) is back after a year off, focusing on panels for film-lovers, filmmakers, and those who aspire to be filmmakers. Which obscure films do you need to seek out? What is the future of the superhero genre and where is cinematic science fiction headed? How did the Universal monsters of the 1930s create horror and science fiction as we know them today? We will have panels that examine all those questions! Additional panel topics will include film review and history, women in film, and discussions on the latest genre blockbusters.

If you are more interested in how-to, we have you covered. We will be looking at both the artistry and the technology of film production. Come on by to learn about shooting, editing, and directing. We will also have tips for those who want to work in special effects, makeup, and sound. Want to know about the latest technological advances in cameras, storage, and conversion? We like to dig deep into the mythological roots and how they inspire the stories we love. This year, we are hosting several panels on trickster gods and how this archetype is represented in High Fantasy. Additionally, we will delve into labyrinths and portal fantasies.

We are going to celebrate the anniversaries of Peter Jackson's adaptation of *The Lord of the Rings* and the publication of *A Game of Thrones*, the first book in the *A Song of Ice and Fire* series that inspired the HBO show. We are even offering virtual panels this year!

SCIENCE

Interested in scientific discoveries like the detection of gravity waves? Want to talk about science in media like *The Witcher*? The [Science Track](#) has you covered! What should be in your go-bag if Godzilla fights King Kong in your city? How do mRNA vaccines work? How could I dabble in practical necromancy? What are the psychological underpinnings of *WandaVision*?

What would it be like if we required researchers to demonstrate animal dances? And what's with all the mosquito news this year? If you have shady, petty plans, our scientists and science communicators can tell you if they would work. And if you want to watch those same scientists and science communicators squirm to explain how the science in *Army of the Dead* is 100% correct, have we got the track for you!

SCI-FI LITERATURE

Here at the [Science Fiction Literature Track](#), located in the Hyatt Embassy AB rooms, we celebrate the written word, focusing on science fiction. We talk to authors, learn about their work, and find out what makes them tick. We discuss current books, rediscover old ones, and meet new people. This is a place for fans of sci-fi literature to gather and have fun. Among our offerings this year is the tried-and-true Sci-Fi Jeopardy, where you can show off your knowledge of the genre. We also have a Design an Alien panel, where input from the audience is not only requested, but encouraged!

New this year is a live *Dungeons and Dragons* game that includes such authors as Charles Gannon, John Hartness, and our literary guest of honor, John Scalzi. Second and third-generation fans will talk about growing up in a fannish household. Our track also covers *Pern*, the science behind the science fiction, and which books did things better than others.

With the upcoming release of the new *Dune* movie, we will discuss the books, past, present, and future. To get things started right on Thursday night, we will be presenting Starship Showdown, where we pit ships from the genre against each other in a bracket to see which one comes out on top. We also have two virtual panels from our track which can be found on the main Dragon Con stream: From Fiction to Science, which will discuss creations from the works of classic sci-fi that have since become part of real life, and an interview with Wil McCarthy, author of *The Collapsium* and *Rich Man's Sky*.

The [Silk Road Track](#) is a journey through culture, time, and the imagination! From belly dance to Kaiju, and martial arts to K-Pop, our programming represents countries from the Mediterranean to Japan, and we are dedicated to bringing as much diversity as we can from across this region of the world. We strive to include historical and modern aspects of the cultures of the Silk Road, both real and imagined.

SKEPTICS

The Dragon Con [Skeptics Track](#) celebrates the world of critical thought, the examination of extraordinary claims, and the promotion of good science over the vast array of supernatural and paranormal claims. We offer live entertainment, topical discussion panels, and talks for science lovers, freethinkers, and skeptics who come each year to keep the flame of critical thought alive during Dragon Con. Keep an eye out for news on the track website, [skeptics.dragoncon.org](http://www.facebook.com/Skeptrack), follow us on [Twitter](#), or visit our Facebook page, <http://www.facebook.com/Skeptrack>.

SPACE

For most people worldwide, life in the time of COVID-19 knocked their lives off their well known path and kicked them again when they tried to get back on! How people worked changed. Where people worked changed. Schooling for every age changed. No sports. No eating out. Even family get-togethers were considered a no - no! But, while we Earthlings were trying to figure out how to move forward, the Universe never lost a neutrino!

Our Moon orbited our Earth. Our Earth orbited our Sun. Our Sun continued its 230 million year turn through our Milky Way galaxy. Stars were born. Stars died. Black holes consumed whatever passed too close and belched out radiation of every kind. Super novas kept happening. Gravitational waves passed by our planet. Covid may have stopped much of the human race, but it had no effect on the Universe. How do we know all these things kept happening while humans were hiding in their homes? We watched it happen! Space based telescopes still watched the Universe; the large land based telescopes did too. In the modern world where computers run most everything and humans can run computers from most everywhere, space related science and activities never stopped!

Rockets launched and released satellites of all kinds, brought astronauts to and from the ISS, and sent the Perseverance lander to Mars. The Hyabusa probe returned to Earth with its cache of material from the asteroid Ryuguru. The Parker Solar gave us the closest views ever of our own Sun.

All the things we love to see and hear about in space near and far still happened and [Space Track](#) has the people to tell you all about space in the time of Covid!

STAR WARS TRACK

After surviving Darth Plagueis (Covid), the [Star Wars Track](#) can't wait to be back with our Dragon Con family to finally get to talk all things Baby Yoda (Grogg).

Of course we will be catching up on *The Mandalorian*, *The Bad Batch*, *The High Republic*, and *Thrawn*, but we will also be speculating about all of the new *Star Wars* coming soon like *Queen's Hope*, *The Book of Boba Fett*, *Kenobi*, *Ahsoka*, *Andor*, more of *The High Republic*, and the other rumored new movies, shows, books, comics, and cartoons!

In addition to our discussion panels, SW@DC will be bringing back fan favorites like the William Shakespeare's *Star Wars* fan reading, The Last Party on Alderaan, *Star Wars* game night, and SuperFan's trivia contest with qualifying test (doodle time). This is the way. We'll see you again. We promise.

TREK TRACK

After our one year away mission, [Trek Track](#) is excited to return home! The Dragon Con Trek Track needs no explanation, but just in case, we are here to satisfy your *Star Trek* needs! The Away Team Photo Scavenger Hunt will be back on Friday of the con! Have your phasers ready for the return of In a Gameshow Darkly - *Star Trek* trivia, but evil! All answers must be in the form of a threat! Get ready for the Chu-Chu dance at another Ten Forward Trek Track party. Klingon Karaoke will return as well for two nights. We also look forward to the 12th annual Miss *Star Trek* Universe Pageant. Our track room will continue to be decorated with wonderful art and a fully functional LCARS panel. Meet fellow fans and follow track updates at facebook.com/groups/dragoncontrektrack.

URBAN FANTASY

The [Urban Fantasy](#) track's 2021 programming kicks off Thursday evening with a viewing of the *Buffy* musical episode, "Once More, with Feeling," in celebration of the episode's 20th anniversary. Attendees are of course invited to sing along.

Throughout the weekend we will feature over fifty authors in the genre participating on panels discussing topics such as Vampires Never Get Old, It Hurts Me More Than It Does You: Character Deaths in UF, Weaponized Magic, Epic Fantasy Tropes in UF, and our annual favorite, Humor, as well as many others.

Urban Fantasy television remains popular, and we will feature fan panels on the shows currently airing, as well as a few classics. *Buffy* and *Supernatural* will have their respective panels be competitions between seasons of the show, with the audience deciding which season was best defended by the panelist representing it.

In addition to our in-person programming, we will have two virtual panels on the Dragon Con livestream: The Urban Fantasy Protagonist, featuring well-established authors in the genre, and Watching Urban Fantasy, a fan panel discussion of the defining characteristics of the genre in several current and classic shows.

VIDEO GAMING

Dragon Con [Video Gaming](#) is back for another year of panels, parties, and pedantic perspicacity. From *Coin-ops* to *Black Ops*, if it has pixels, we have panels.

Many of your favorite events will be returning this year, including Bad Science in Video Games, and panels highlighting both fan-driven content as well as information on the making of video games. Special guests include Mark Meer, Dino Andrade, and voice actors from many of the most popular video games including *Fallout 4*, *Overwatch*, *Mass Effect*, *World of Warcraft*, and more!

WRITERS' TRACK

And . . . Along Came the Covid Monster: 2020 is the year that wasn't. Or should that be: 2020 WAS the year that Wasn't? Confusing, we know. Sorry.

[Writers' Track](#) is doing everything we can to make this year our best ever. Storytellers are spinning the most exciting tales, creating the scariest monsters, the most involved plots, the greatest super-heroes of all time, and the best go'darn stuff you ever read. We may not have been prepared for a pandemic—there's that nasty COVID Monster again—but writers are busy every day working on the novels and stories that enhance your dreams, bolster your hopes, and haunt your nightmares.

We're gonna make you wake up screaming in the night or cowering behind the refrigerator or purchasing your first space-suit or buying spandex for your very own super-hero costume. Or, better yet, grabbing your computer and writing your own books, stories, film scripts, games, etc.

Writers' Track is planning a spectacular gaggle of panelists to make up for the lack of a live Con last year. Join us. We're loading the schedule with panels and workshops about characterization, plotting, writing for film, crafting short stories, building anthologies, self-publishing, writing for YA markets—and even a panel on advice for very young writers—with exciting topics and writers. More and more and more. Whew! It's gonna be a blast. Y'all come!

X-TRACK/PARANORMAL

X-Track is ready for 2021, or as we're calling it, "The Year of the Epic."

Our track director says a man in black gave her that tag. We're going with it...because it's not paranoia when they really are watching.

Panels will cover many new *uneXplained* shows and bring back favorites. Panels about UFOs, both real investigations and official processes to TV showing agents finding UFO pieces. We cannot wait to converse about *Men in Black*, cryptids and aliens, both on our small screen and in nature. There will be fan-favorite returning panelists and panels, updated both in light of and due to 2020: tarot, Hollywood plans and our favorite shows. Especially since we all had lots of "alone time" to read up, practice our abilities and binge shows. Wow, 2020 - so weird even X-Track couldn't imagine it.

And our beloved Eddie McClintock is returning and we can't wait to hear his stories. And see any costumes he may have. We cannot wait to see our friends again, in actual 3D and live. See you in our track room and big rooms soon. It's gonna be the "Year of the Epic," no matter what.

YOUNG ADULT LITERATURE

Whether you're a regular at the Young Adult Literature Track or you're joining us for the first time, you'll find something to get excited about!

We'll have discussions of your favorite books - from *Hunger Games* and *Harry Potter* to *Shadowhunters* and *Children of Blood and Bone*, and everything in between. We also have a great line-up of authors ready to discuss topics like writing craft and fandom and our books recommendations are epic - including our popular LGBTQ+ YA panel. We've got some new TV shows based on YA books to discuss, and as always we will have some magical events for you to look forward to! So join us all weekend for amazing author guests and great discussion - we can't wait to talk books with you!

THE 8-BIT BASH

The Dragon Con Video Gaming track is proud to present The 8-Bit Bash, featuring music from the golden age of video games (or, as most people would call it, the 70's and 80's). DJP will be spinning the tunes from start to finish (whenever that might be... who knows?)

The 8-Bit Bash will be on Thursday night in the Westin as if you needed another reason to come to Dragon Con a day early!

ART SHOW

In 2019 the Dragon Con Art Show took on a new look and feel, bringing the artists and the fans closer together. The 2021 art show will have the same atmosphere, with fabulous artists from all over the world joining us in our beautiful new art gallery to showcase their best work.

As Dragon Con celebrates 35 years of fun, we cannot help but think about the many world-renowned Guests of Honor we have welcomed throughout our history, and this year our honoree surely lives up to the title. We are pleased to welcome American fantasy artist and illustrator William Stout as the Artist Guest of Honor for 2021. In addition to his incredible artistic achievements, he designed the long standing Dragon Con logo and has been a longtime friend of the convention.

While the Art Show has grown and evolved over the years, it has always maintained the integrity and spirit that is Dragon Con. Each artist is juried and carefully selected from hundreds of applications. Our team of volunteers are always present to answer questions and help in any way they can. Our programming is outstanding in its content and uniqueness, and our artists bring their A-game every year!

One of our favorite annual events is the art auction, which raises money for the Dragon Con charity.

Each artist decorates a unique, one-of-a-kind piece that visitors can bid on; in the past these items have included bird houses, plates, and keepsake boxes. Also up for auction will be a truly special piece made in collaboration by all the artists. Throughout the weekend, artists will add their own contributions such as drawings and paintings to a four-part canvas, which will then be awarded to the highest bidder. Come see these amazing creations for yourself at the annual charity auction, which will be held on Monday.

This year, as a special treat for our youngest fans, we will have a children's sketch book available while supplies last. As you are enjoying the art show, your children can get signatures and maybe even a doodle or two from participating artists as a special keepsake just for them! As always, art is subjective, so you might want to check it out prior to bringing smaller children.

The art show holds its own type of energy and excitement that you will want to add to your Dragon Con experience. Stop by and look around, have a one-on-one discussion with your new favorite artist, or take advantage of the opportunity to meet our Artist Guest of Honor, William Stout. For a complete list of artists that will be featured in 2021, check the [Dragon Con website](#).

Too busy to visit the art show? Just go to eventany and shop from the comfort of your hotel room after hours!

AUTOGRAPH SESSIONS

Each year, Dragon Con assembles many of its willing guests for scheduled autographs (signings) in one area. Not every guest is willing – or able – to sign items, but we do inquire as to each guest's willingness to do so.

Some guests, usually screen media guests, charge for autographs in our Walk of Fame, but autographs staged in our Autograph Area are always free.

Limitations on number and type of items may be made, generally at the request of the signer, and sometimes due to time considerations.

Autographs will be handled on a first-come, first-signed basis. We will promote equal access for handicapped persons, but this does not exclude them from the first-come, first-served rule; as with other convention attendees, they will get their autograph in order of their arrival.

BLOOD DRIVE

Give the gift of life and donate blood at the Dragon Con Blood Drive. For LifeSouth, which serves more than 40 hospitals in the Atlanta area and more than 110 hospitals in Florida, Georgia, and Alabama, Dragon Con is a major donation venue.

In 2021, the Blood Drive will be held at the Hyatt on the Conference Room level. Don't miss out this year! All donations will be appointment only.

Join us, give blood, get a free T-shirt!

BUNNY HUTCH

Welcome to the Playboy Mansion where everyone is invited to wear their own unique interpretation of a Bunny or Heffner costume. Happening Thursday night, this is one of the first parties of the Con. DRAGON CON BURLESQUE: A GLAMOUR GEEK REVUE

Taloolah Love is honored to bring you the Dragon Con 2021 burlesque show and is thrilled to bring back, Taloolah Love Presents: Dragon Con Burlesque – A Glamour Geek Revue. With this two hour show, she hopes to appeal to not just the gluttons for glamour, but also to the Geek Chic who make Dragon Con what it is. Be sure to mark this on the must do list for the weekend, you won't regret it! All you need is your badge to attend this event!

CELEBRITY PHOTO OPPORTUNITIES

Dragon Con is pleased to be able to offer the opportunity for attendees to be photographed with some of their favorite media guests! Epic Photo Ops will be handling these photo sessions throughout the weekend. Check the website at www.epicphotoops.com for more details as they become available in the near future.

COMICS & POP ART

With over 140 illustrators, sculptors, painters, and writers in attendance, Comic and Pop Artist Alley offers an eclectic array of creators from comics, animation, pop surrealism, lowbrow, and art toy design. Attendees have the opportunity to meet their favorite creators, get autographs, purchase comics and art, and attend fan panels over the course of four fantastic days. We are also offering several "how to draw" workshops for both kids and adults, and featuring live painting in Artist Alley. Once again, we are excited to provide a complimentary Kids Sketchbook, available in Comic and Pop Artist Alley, that children can take to participating artists for free sketches.

Comics and Pop Art will be conveniently located on the 4th floor of the AmericasMart, Building 2 in close proximity to the hundreds of exciting vendors in the Dragon Con Vendor Hall. The guest list features a wealth of amazing guests, including John Romita Jr., George Perez, Tini Howard, David Mack, Stephen Green, H.C. Warner, Zu Orzu, Bill Reinhold, Linda Lessmann Reinhold, Creeees, Peter David, Shawn Crystal, Sam Maggs, Derek Yaniger, James Pascoe, Bill Holbrook, Jeff Dekal, Scott Hanna, Nooligan, and many more! Additionally, the Atlanta Area Art Collectors will be back again this year with another amazing display of original art. We are looking forward to spending Labor Day weekend enjoying the best that Comics and Pop Art has to offer!

COSPLAY PHOTOGRAPHY

Even if you don't know his name, chances are you have seen the work of photographer Bryan Humphrey. He has been a staple at conventions for many years and his costuming photos have become some of the most iconic and well known in the hobby. Through the use of top-of-the-line professional equipment, dramatic lighting, and years of experience shooting costumers, Bryan's work at cons is often unparalleled in quality and scope. In the first session, participants will learn the foundation of illusion, how to perform the mechanics and basic sleight-of-hand behind some incredible feats of magic, the psychological

structure of building deception, and how to best perform in front of an audience. The second session will delve into more advanced techniques and skills, and Jon and Curt will review and help you perfect your work from the first session.

EVERYTHING YOU NEED WILL BE PROVIDED! In addition, you will have access to digital instructions to brush up on what you learned after Dragon Con is over. As a special thank you for attending the workshop, you'll also be given access to additional tricks to learn from the comfort of your own home. [Sign up fast!](#) This will be a very limited seating workshop to ensure every participant gets the personal instruction they need. The cost for this workshop is \$100 + tax.

Jon Armstrong and Curt Anderson are award-winning professional magicians whose combined credits include performing on *The Today Show*, *Penn and Teller's Fool Us*, and *Masters of Illusion* as well as being a magic consultant on several shows, including *Supernatural*, *Arrested Development*, *The Mentalist*, and *Shut Eye*.

Complete details concerning Covid-19 restrictions and requirements will be communicated as the moving target that is infection and vaccination rates become better known in July and August. Responsible gamers and persons interested in gaming should be vaccinated before attending in person gaming events.

Gaming returns to the Westin Hotel and AmericasMart Building One, on the second and third floors. Due to completed renovations by AmericasMart, the meeting rooms used on the first floor of Building One are no longer available. The Westin Peachtree Plaza will host our Gaming oriented programming, the Table Top and Video Gaming tracks, Campaign Role-playing Gaming, Open Gaming, NSDMG / War College, Werewolf Gaming, and the Artemis Spaceship Bridge Simulator. LAN Gaming, along with our E-Tournaments, Collectible Card Gaming and Non-Campaign Role-playing games are on the second floor of AmericasMart Building One. Miniatures Gaming and AD&D On-demand and Adventurer's Leagues games will be on the third floor. As mentioned above, Open Gaming moves to the Westin in the Savannah Ballroom along with Campaign Role-playing Gaming.

Full details and maps will be included in our app, our Dragon Con *Quick Start Guide*, and the *Gaming Guide*. We will have printed versions at Gaming HQ/Registration on the second floor of AmericasMart Building One at the entrance/exit from the Westin Hotel in the same spot it has been.

In order to play in most events that are not free demonstration events, you will need an event ticket. Most event tickets cost \$5.00, but there are a few that are more expensive. CCG "sealed deck" and "booster draft" events can cost considerably more, but you are also purchasing playable cards that are yours to keep in whatever game you are playing. You can purchase generic tickets that are usable at any event. If an event is sold out you can show up for that event with a generic ticket and if anyone with a "real" ticket for that event does not show up you will be able to step in.

This is particularly true for the larger events where there is more of a chance of a no show or cancellation. Board games and *Are you a Werewolf* games are the glaring exception; one only needs to buy a Board Gaming or *Werewolf* sticker for the entire convention for \$10.00 in order to check out and play one of the hundreds of games in our game library and/or participate in any *Werewolf* games.

Please check our gaming specific website, www.gaming.dragoncon.org. You can submit events of your own to judge or purchase event tickets for events you see listed there.

ARTEMIS STARSHIP BRIDGE SIMULATOR

Join a crew on our fully interactive *Artemis Spaceship Bridge Simulator*. It's a LAN party/LARP/Escape Room mashup experience you can't duplicate online!

You and your friends assume the roles of Captain, Helm, Science, Weapons, Communications, and Fighter Pilots to operate the Terran Stellar Navy spaceship, Artemis.

- **Captain:** Channel your inner Kirk/Picard/Janeway and make the tough choices.
- **Helm:** Ahead warp factor 1, then slow to impulse and hard to starboard. Bring us behind the enemy fleet just outside torpedo range...
- **Weapons:** Load... lock... fire! Turn big enemy ships into small pieces. Just don't fire nukes at point blank range; go for beam weapons instead.
- **Science:** Scan the sector, find the enemies, and check for secret intel and weaknesses. Watch out for cloaked ships.
- **Communications:** Incoming message! Our space station is under attack! Taunt the enemy fleet leader to draw them away from the base, then call for reinforcements from other Terran vessels.
- **Engineering:** Power and cooling are the name of the game. Boost power to warp to get us there, to weapons for more boom, and to shields when we're getting toasted! Give it all she's got!
- **Fighter:** The Artemis can launch up to 2 single-pilot fighter craft to join the fight and add a bit more punch.

Your crew's success--or failure--depends on your ability to follow the Captain's orders and work together to defend Terran bases against an alien invasion. This event is a 6 to 8 player experience, suitable for ages 10+. Don't have a group large enough for a full crew? No problem! Sign up and join with another small party and make new friends! Tickets available at www.Jump2Warp.com or in-person at Westin Anasley Room 7.

NATIONAL SECURITY DECISION MAKING GAME

The fine folks from the *National Security Decision Making Game* (NSDMG) will return to the convention this year, observing the 30th anniversary of their founding right here at Dragon Con. If you pay attention to the news or current events, or have an interest in military and geopolitics, it is a hoot!

They will be running different formats of their game, plus giving some great lectures and panels. They focus on contemporary, historical and futuristic geopolitical, military, technological, and economic issues.

In the NSDM political, military, and economic role-playing game: "You players are the congress. You over there, you're the Cabinet. You folks in the corner are the Joint Chiefs. This guy's the President. The scenario is: it's the world as you know it today. Fix it. You may start now."

New issues and problems arise in every game with different nations in play, showing a range of real issues across the world and modeling a number of different political systems through which the players navigate. Can you affect Iranian policy as the US? Can you take-on the Ukraine playing Russia? As China, can you keep the West from interfering with your ascent to superpower status? And how do you solve a problem like Korea? Several of the games are ear-marked specifically for science fiction and futuristic themes such as artificial intelligence and robotics, space exploration and exploitation, nuclear reactor disasters, electromagnetic pulse, supervolcanoes, and of course, pandemics.

WEREWOLF (SOCIAL DECEPTION GAMING)

Long a staple of Dragon Con gaming, we have had our own dedicated gaming space since 2017. Are you ready to lie and deceive your friends? Located on the 14 th Floor of the Westin, The Social Deception group at Dragon Con presents 4 days of Social Deception gaming! Our regular business hours will be available 12:00 PM to 5:00 AM Thursday - Monday. The Social Deception group provides experienced moderators to give you the best social deception experience! Join us for your favorites – *Ultimate Werewolf*, *Witch-hunt*, *Secret Hitler*, *Two Rooms and a Boom*, and more! A social deception gaming library will be available. In addition, we will be giving away prizes all weekend! All that is required to play is a Dragon Con *Werewolf* sticker (and of course Dragon Con membership!)

BOARD GAMES

Time to play some board games! We will be offering board gaming for \$10 for the entire weekend! Board Game Memberships can be purchased in advance or on site at Gaming Registration or the Board Games checkout desk.

Returning this year, members have an opportunity to take home games that you have played throughout the weekend. Dragon Con will have a library of Play to Win games in the library. Drawing will take place on Sunday evening and winners have until 2:00 PM Monday to claim their games. Learn a new game and at the same time have the chance to take a copy home with you. Members can select from the Dragon Con board games library of over 450 games and play their skills versus the best that the con has to offer. The Board Games area is a great place to relax and people watch while enjoying the large selection of games from major board game manufacturers as well as independents.

The Dragon Con library has games that are competitive as well as cooperative. Join in on scheduled tournaments and compete for Dragon Con coins. Look for *Settlers of Catan*, *King of Tokyo*/*New York*, and other tournaments.

The Board Games area is also great for learning how to play and perfect strategies of games you may be thinking of purchasing for your home library. Some of the most popular titles will be available to try as well as many classic games. The Dragon Con Board Games library offers you an opportunity to try before you buy and our volunteers can help you figure out how to play even the most obscure of games. There will be independent game developers demonstrating games that are being released through Kickstarter, as well as Indie Cards and Games. This is an opportunity to see the next big board game in its early stages.

CAMPAIGN ROLE-PLAYING GAMES

This year, Campaign Gaming will be offering at least six signature campaigns. Five are yearly staples and continue to grow - Paizo's *Pathfinder Society* (PFS), Paizo's *Starfinder Society* (SFS), Paizo's *Adventure Card Game* (ACG), WotC's *D&D Adventurers League* (DDAL) including *D&D On Demand* and *D&D Experience* offerings, and Catalyst Labs' *ShadowRun Missions* (SRM). One is brand new to Campaign Gaming - *Torg Eternity*, with free information for this campaign offering at: <https://www.drivethrurpg.com/product/350905/Torg-organized-Play-Shared-Campaign>.

At present, we do not have a firm commitment on the specific events that will be offered, as release schedules for events have not been finalized by the companies that offer Campaign style gaming.

In fact, current release schedules are even more in flux than usual, given the current issues with the global pandemic. When current release schedules are available (ensuring the ability to provide the newest event scenarios, while being able to guarantee these scenarios will be received in a timely fashion for the show), we will update the Gaming Registration website. All event scheduling should be available for the final Gaming Guide. Campaign Gaming will be split between Atlanta's Mart Building 1 on the third floor and the Westin Hotel in the Savannah Ballroom.

Live Action Role-Playing Games (LARPs): where theater meets tabletop gaming! This year, LARPs is pleased to offer events from our returning fan-favorite productions, as well as some exciting games that will be making their Dragon Con debut. For those LARP games that run continually throughout the year, we will have "display-only" tables staffed and ready to answer your questions. As the schedule is finalized, we will update the gaming registration website. We look forward to presenting many different opportunities in a variety of styles and formats for everyone, from the novice to the experienced LARPer, and even a few for those curious about LARPs. We invite you to step away from the game table and live the part. Be sure to follow us on Facebook (Dragon Con Live Action Role Playing - LARP Games) for updates! For more information, contact us at larps@dragoncon.org.

NON-CAMPAIGN ROLE-PLAYING GAMES

We will be running live events in the Non-Campaign lair this year. While the sands of time are not yet set, it is expected that *Galaxy Rangers*, *Pygmies*, *Fantasy Grounds*, *Torg*, and *D&D* will make appearances.

We are looking for people on both sides of the game master screen. Both players to explore the worlds created by others, and game masters to create those worlds for others to explore. Non-Campaign means a roleplaying game where you will play a character provided by the game master for generally one game slot. To find out more information about the roleplaying options and all of gaming, check out the registration website at gaming.dragoncon.org. Make sure to subscribe to the mailing list mentioned on the site to get notification when the site will be open for event submissions and when event tickets are available for purchase. If you have any questions about the non-campaign roleplaying options you can contact us at noncampaignrpgs@dragoncon.org.

TABLE TOP GAMING

Our theme this year is the Year of the Game Master - many of our panels will be featuring talk on game mastering and running games featuring Devon Chulick and Kenneth Hite. Panels include; Help! My Game is On Fire, Professional Game Master for Fun and Profit, and The Game Master's Bag of Tricks.

Table Top Gaming will feature a full schedule of panels (minus some strategically scheduled off time for room cleaning).

For you board game fans, there will be several panels featuring board game content including guest Steve Jackson from Steve Jackson Games.

DISABILITY SERVICES

Dragon Con seeks to do its utmost to provide equal access to its participants with disabilities in accordance with state and federal law. We can offer a variety of services to help you enjoy your Dragon Con experience, including wheelchair accessible shuttles between the hotels, electronic programs for your screen reader upon request, dedicated staff in Main Programming areas, and assistance through registration for people with disabilities. We provide some standard accommodations based on seating requirements via stickers for your badge. If you need more information about our department or the standard accommodations we offer, please contact disabilityservices@dragoncon.org and check out our Wiki. [The Wiki](#) goes into detail on all of the services we offer, as well as information on navigating the con, hotel hazards, self-advocacy, accessible dining options around the con, and more.

Dragon Con spans five hotels and six city blocks on a hill. If you have difficulty walking long distances, we strongly recommend you consider renting an electric scooter.

Scooter and Wheelchair rentals are available by contacting ScootAround Inc. toll-free at 1-888-441-7575, by email at info@scootaround.com, through their [website](#) or by fax at (204) 478-1172. Please contact them early.

Dragon Con Disability Services seating policies will be updated for 2021 to, unfortunately, include a seating cap on disability seating. This is done primarily to maintain the safety of attendees waiting for seating, both in the regular line and DCDS seating areas. DCDS, as always, works to set a level consistent with Federal requirements for seating under the ADA.

To facilitate this limit, each seating area will provide a returnable seating confirmation (a card) to each DCDS-approved attendee and one companion, beginning 30 minutes prior to the start of a panel.

When the available seats run out, disability seating will no longer be available for that panel. In any situation where seats remain at the completion of the loading process, our existing policy will apply – we will do our best to accommodate attendees, but no seating will be guaranteed

CONSUITE

The Hospitality Suite, aka the Con Suite, is a place for convention attendees to relax, get a bite to eat, and/or a soda or juice to wet their whistles. Located in the Hyatt, the Con Suite will provide snacks, as well as some larger grab and go options around meal times. Opening around noon on Friday, the Con Suite stays open around the clock until Monday afternoon, with intermittent closures for cleaning, zombie outbreaks, maintenance, and/or mental health purposes.

INFORMATION BOOTHS

The information booths, located in each of the five host hotels, are your one-stop centers for getting all your questions answered. Their exact location will be available on the mini maps provided in the Dragon Con 2021 App. The staff will be able to help you find where everything is located and help with just about any other question or request you may have. And if they don't know the answer, they'll send you directly to the person who does.
